

T8 BATTEN LIGHTS

Led lights

Warm, White, Yellow

Discover our range of T8 LED tube lights, designed for superior lighting performance and energy efficiency. These classical and globally recognized lighting solutions are engineered to be direct replacements for traditional fluorescent T8 and T12 lighting, offering energy savings of more than 60%. They are suitable for both retrofit and new projects. Ideal for a wide array of commercial and industrial settings, these T8 LED tube lights are perfect for supermarkets, shopping malls, entertainment venues, and factories. They offer high light efficiency of 120lm/w and are a reliable solution for your lighting needs.
