

STEP-OVER BENCH WITH SHOE COMPARTMENTS

Length	620, 890, 1160, 1430, 1700, 1970, 2280, 2820
Width	500, 600

Frame structure in stainless steel AISI 304 fully welded 40x40mm tube, 1.00mm thick, and round 33mm tube, 1.5mm thick. Welded side panels closing the structure. Single compartments easily removable, manufactured with front R=10mm rounded edge and side panel in order to divide the space of each compartment. Central partition panel divides clean and dirty shoes. Seating top in AISI 304 sheet, 1.20mm thick, with inner plywood reinforcement and stainless steel lower cover. Rounded (R=10mm) longer edges. On adjustable feet.
